

The Ultimate Resource Guide

Blogging For Beginners

Bluehost - Your self-hosting service and the place where you buy your domain name

Canva - Creating pinnable images, blog graphics, and all your social media images

Aweber - Your email service provider for sending emails to your subscribers

KWFinder - The place to lookup keywords to find your blogging niche and to create content your audience wants to read about

Google Trends - A free place to look up keywords and phrases

Google Keyword Planner - A free resource for planning blog posts

Alexa - A more in-depth analysis of websites similar to yours. Helps you determine what is working and what isn't with your competitors

LightRoom - This is where you can edit your photos for social media and your blog post content

Big Stock Photos - A place to find inexpensive, high-quality stock images to add to your blog posts
